HOW THE INJESTER, A CLOWN HORDE, WAS BORN IS A STORY WE SHALL TELL...

The likes of Rob Zombie, Alice Cooper, FNM, Ghost and Mr Bungle have played a part in shaping who they are.

The band's debut music is a metallic mix of horror, theatre and tales for all mankind.

Under their previous personas, The Injester have played some of metal's biggest stages. Performing at Download, Bloodstock, Hellfest, Wacken, Hammerfest, Hard Rock Hell and many other festivals and tours. This moulded them into what they have become. The Injester made their live debut at Hammerfest in the UK in 2019 alongside Paradise Lost with Hard Rock Hell Magazine saying, 'Saturday afternoon saw The Injester make their debut and I'm not sure we'll be the same again!'

The band subsequently went on to return to the scene 'post covid' with a packed performance at the New Blood Stage of Bloodstock 2021. The band followed this up with another acclaimed festival set at Download in 2022.

Their debut full length 'A Spectacle to Behold' released to critical acclaim at Halloween 2022.
